PROFILE

Dedicated and experienced React Full Stack Developer with a passion for crafting efficient and user-friendly web applications. Proficient in front-end and back-end technologies, with 1+ years of experience in learning and applying react apps and sites. Adept at collaborating with cross-functional teams to achieve project goals and meet deadlines.

PROJECTS

AlcazarTravel

Part of the Construct Week project. Alcazar is a website made from a concept design. Made with advanced JS and bootstrap with applied firebase authentication.

The application allows users to sign up, browse famous locations, make a booking, make successful payments, and more.

With a team of 4 executed in a week

<https://alcazartravelling.netlify.app/>

Cryptosphere.com

First try at a React project. Cryptosphere is a state-of-the-art crypto website. Made possible with React framework with redux

Using this application you can get the latest crypto news and also get information, charts, and different exchanges stats.

Solo Project executed in 3 days
